SAV-EB-TT BOX

The SAV-EB-TT is a Pre-wired Electrical box for our Winch Haulers, designed and made in Australia to protect all switching gear that would otherwise be exposed to the elements. All that you will need to do is run the wiring along your application, connect to the winch motor and place the box in a suitable location. As close to the Battery as possible

4/72-74 Lambeck Drive
Tullamarine, Victoria, 3043, Australia
